ACTIVITY-4: PROGRESS CHECK-IN

Minimum Viable Product-2

Re-Introduction

- This project will connect the NGOs to the general populace. This project will allow NGOs to post their campaign details so that people who need help can find out appropriate NGO campaign and ask for help. Additionally people who want to do volunteering can join campaign which will be helpful for the NGOs. To conclude, this project is to serve humanity to the society

- UNSD Goals :-

1)No Poverty 2)Zero Hunger 3)Good Health & well-being 4)Quality education

Scrum Date

- Start Date: 2nd June 2021
- End Date: 9th June 2021

Status Description

- ❑ Backend Functionalities:
- ➢ Search functionality in all user pages.
- ➢ Now Ngo can upload their logo.
- ➢ Required Document list field added in Post Campaign.
- ❑ Frontend Development:
- ➢ Designed all web pages except 3 to 4 pages remaining.

Project Issues

- On Image upload functionality firstly I made mistake on field so that NGO can upload any documents but then I researched on internet and sort it out. Now if anyone upload other than image file error will pop out.

- Using For loop in bootstrap Card. Hard to achieve responsive web page.

Project Changes

- As per the previous discussion I have added a new field "Required document list" in Add/post campaign table.

- I have added search functionality in user pages so that it's easy to sort Ngo list as per the comment on mvp-1.

Next Up

☐ As it's a last week of the project now I will focus on completing design of remaining pages and finishing work.

Reflection

- Do you Feel 'on track'?
- Yes , I think my project designing is almost done.

- What progress do you feel good about?
- I always download templates on every project as I don't like front-end development and had fear of non-responsive design. But, for this project I tried my best and accomplish responsive design.
